CONDICIONALES AVANZADAS

Advanced conditionals · mixtas y alternativas a if

Nivel C1

Mezclamos tiempos (**mixed conditionals**) y cambiamos **if** por conectores más precisos: unless, provided that, but for…

1 Mixta: pasado → ahora

- If I **had taken** the job, I'**d be** in Paris **now**.
- Condición pasada → resultado presente
- (Si hubiera aceptado…, ahora estaría…)

2 Mixta: siempre → pasado

- If I **were** braver, I'**d have spoken** up.
- Rasgo permanente → resultado pasado
- (Si fuera más valiente, habría hablado.)

3 Unless, otherwise, but for

unless	= if … not · a menos que
otherwise	= si no, de lo contrario
but for + nombre	= de no ser por

4 Solo si… (requisito)

- **provided / providing (that)**
- **as long as · on condition that**
- + presente, nunca ~~will~~: as long as you **pay**

5 Hipótesis

- **Supposing** you lost your job…?
- **What if** they say no?
- **Assuming (that)** prices rise…

7 Error común

✗ If I would have known, I'd have come.

✓ If I had known, I'd have come.

would nunca va detrás de **if**

6 Consejo rápido

- **in case** = por si acaso ≠ **if**
- «en caso de que» = **if** / **in the event that**
- Nada de **will** / **would** tras if

Mini ejercicio

Completa la condicional. Complete the conditional.

1. If I _____ law, I'd be a lawyer now. (study)
2. _____ you pay, you can't come in.
3. You can go _____ you're back by ten. (solo si)
4. Take a coat _____ it gets cold. (por si)
5. Hurry up, _____ we'll be late.

Explicación · Explanation

Lee cada recuadro despacio. Primero en español, luego en inglés. Read each box slowly: first in Spanish, then in English.

¿Qué es? · What is it?

Las condicionales avanzadas son de dos tipos. (1) Las **mixed conditionals** combinan tiempos distintos en cada parte porque la condición y el resultado **no pertenecen al mismo momento** (una decisión del pasado con consecuencias hoy). (2) Las **alternativas a if** añaden matices que if no tiene: excepción (unless), requisito (provided that, as long as), hipótesis (supposing, what if), precaución (in case), consecuencia negativa (otherwise) o causa decisiva (but for).

Advanced conditionals = **mixed conditionals** (condition and result belong to different times) + **alternatives to if** that add nuance: exception, requirement, hypothesis, precaution.

If + past perfect + would + infinitivo (pasado → ahora)

If + past simple + would have + participio (siempre → pasado)

1 · Mixta: pasado → presente · Past condition, present result

La condición es **pasada e irreal** (no ocurrió) y el resultado es **presente**: cómo están las cosas **ahora**. En la parte del if va **past perfect**; en el resultado, **would / could / might + infinitivo**, muchas veces con now, today, still. Es la estructura española Si hubiera..., ahora + condicional simple.

Unreal **past** condition → **present** result: **If + past perfect, would / could / might + infinitive.**

If + had + participio..., + would / could / might + infinitivo (now)

🌴 If I **had accepted** that offer, I **would be living** in California now.
→ Si hubiera aceptado aquella oferta, ahora estaría viviendo en California.

💻 If the company **had invested** in digital tools, it **wouldn't be struggling** today.
→ Si la empresa hubiera invertido en herramientas digitales, hoy no tendría dificultades.

💊 If you **had taken** the medicine, you **might feel** better now.
→ Si te hubieras tomado la medicina, puede que ahora te encontraras mejor.

2 · Mixta: presente → pasado · Present condition, past result

🇪🇸 La condición es una **situación presente o permanente** que no es real (un rasgo de carácter, una capacidad, un hecho general) y el resultado es **pasado**. En la parte del if va **past simple** o **past continuous** (were en registro cuidado, was en el habla); en el resultado, **would / could / might have + participio**. En español: Si fuera…, habría…

🇬🇧 Unreal **present / permanent** condition → **past** result: **If + past simple, would / could / might have + past participle.**

If + past simple / were + …, + would / could / might have + participio

🗂️ If I **were** more organised, I **wouldn't have missed** the deadline.
→ Si fuera más organizado, no habría perdido el plazo.

💼 If she **didn't speak** fluent German, she **wouldn't have got** the job in Berlin.
→ Si no hablara alemán con fluidez, no habría conseguido el trabajo en Berlín.

✈️ If we **weren't flying** to Rome tomorrow, we **would have accepted** your invitation.
→ Si no voláramos mañana a Roma, habríamos aceptado vuestra invitación.

Las cuatro combinaciones · The four combinations

Tipo · Type	Condición (if)	Resultado	Ejemplo · Example
2.ª condicional	presente irreal · past simple	presente · would + infinitivo	If I had more time, I would travel more.
3.ª condicional	pasado irreal · past perfect	pasado · would have + participio	If I had left earlier, I would have caught the train.
Mixta A	pasado irreal · **past perfect**	presente · **would + infinitivo**	If I had studied law, I would be a lawyer now.
Mixta B	presente irreal · **past simple**	pasado · **would have + participio**	If I were a lawyer, I would have spotted the problem.

🇪🇸 Pregúntate por separado: ¿**cuándo** es la condición? ¿**cuándo** es el resultado? Cada mitad lleva su propio tiempo.

🇬🇧 Ask separately: when is the condition? When is the result? Each half takes its own tense.

CONDICIONALES AVANZADAS

Advanced conditionals · mixtas y alternativas a if

📖 **Explicación** · Explanation | **Nivel C1**

3 · Unless · Unless = if … not

🇪🇸 **Unless** = if … not / a menos que, salvo que, a no ser que. Ya lleva la negación: no añadas otra (~~unless you don't pay~~). Para el futuro va con **presente**. Matiz: unless presenta la condición como la **única excepción**, así que no sustituye a if … not cuando hablamos de reacciones: I'll be surprised if he doesn't come (no ~~unless he comes~~).

🇬🇧 **Unless** = if … not / except if. It is already negative. Use a present tense for the future.

Unless + presente + …, + will / imperativo / can…

📉 **Unless** we reduce costs, we will have to make redundancies.
→ A menos que reduzcamos costes, tendremos que hacer despidos.

✍️ The offer is not valid **unless** it is signed by both parties.
→ La oferta no es válida salvo que la firmen ambas partes.

📞 I won't call you **unless** there's a problem.
→ No te llamaré a no ser que haya algún problema.

4 · Provided that, as long as… · Requirements: only if

🇪🇸 Expresan un **requisito**: solo si, siempre que, con tal de que. Del más formal al más coloquial: **on condition that** (contratos, acuerdos) → **provided / providing (that)** → **as long as / so long as**. Van con **presente** aunque hablen del futuro (~~provided that you will pay~~). ¡Trampa! El español siempre que también significa cada vez que = **whenever**: Siempre que llueve, se inunda → Whenever it rains…

🇬🇧 **On condition that** (very formal) → **provided / providing (that)** → **as long as** (neutral). Present tense for the future.

Resultado + provided (that) / as long as / on condition that + presente

🏠 You can work from home **as long as** you attend the Monday meeting.
→ Puedes teletrabajar siempre que asistas a la reunión de los lunes.

🏛️ The loan will be approved **provided that** you can show proof of income.
→ El préstamo se aprobará siempre que puedas acreditar tus ingresos.

🎙️ She agreed to the interview **on condition that** her name was not published.
→ Accedió a la entrevista con la condición de que no se publicara su nombre.

CONDICIONALES AVANZADAS

Advanced conditionals · mixtas y alternativas a if

📖 Explicación · Explanation | Nivel C1

5 · Supposing, what if, assuming · Hypotheses

🇪🇸 Para plantear **hipótesis**: **suppose / supposing (that)** (= pongamos que, imagina que), **what if** (= ¿y si…?), **imagine** y **assuming (that)** (= dando por hecho que). Con **presente**, la situación se ve posible; con **pasado**, más improbable o imaginaria: What if we **miss** the train? / What if we **missed** the train? Con suppose / supposing la frase suele terminar en pregunta.

🇬🇧 **Suppose / supposing, what if, imagine, assuming** introduce hypotheses. Present = possible; past = less likely or imaginary.

Supposing / What if + presente + … ? (posible)

Supposing / What if + pasado + … ? (improbable)

🌍 **Supposing** you were offered a promotion abroad, would you accept it?
→ Pongamos que te ofrecieran un ascenso en el extranjero, ¿lo aceptarías?

😬 **What if** the investors pull out at the last minute?
→ ¿Y si los inversores se retiran en el último momento?

📈 **Assuming** the figures are correct, we will break even next year.
→ Dando por hecho que las cifras son correctas, el año que viene cubriremos gastos.

6 · Otherwise, or else, but for · Otherwise and but for

🇪🇸 **Otherwise** (= si no, de lo contrario) introduce la consecuencia negativa de no cumplir lo anterior; suele ir tras punto, punto y coma o and. **Or (else)** es su versión coloquial. **But for** + nombre (formal) = de no ser por = **if it weren't / hadn't been for** = **without**. Detrás de but for va un **nombre**, nunca una frase completa.

🇬🇧 **Otherwise / or else** = if not. **But for + noun** = if it weren't / hadn't been for = without.

Frase; + otherwise + consecuencia

But for + nombre + would / would have…

📅 Please confirm by Friday; **otherwise**, your booking will be cancelled.
→ Por favor, confirme antes del viernes; de lo contrario, su reserva quedará anulada.

👏 **But for** the goalkeeper's heroics, we would have lost by five goals.
→ De no ser por las paradas heroicas del portero, habríamos perdido por cinco goles.

🤝 **If it hadn't been for** your advice, I would have signed a terrible contract.
→ Si no hubiera sido por tu consejo, habría firmado un contrato pésimo.

Truco de los dos relojes · The two-clock trick

🇪🇸 Para las mixtas, dibuja **dos relojes** ⏰: uno para la condición y otro para el resultado. Condición **ayer** + resultado **hoy** → had + participio … would + infinitivo. Condición **siempre** + resultado **ayer** → past simple … would have + participio. En registro formal, provided that u on condition that suenan más precisos que un simple if.

🇬🇧 Draw two clocks: one for the condition, one for the result. Each half takes its own tense.

7 · In case ≠ if · even if · In case, in the event of, even if

In case = por si (acaso): hacemos algo como precaución, ocurra o no lo otro. If = si: lo hacemos solo cuando se cumple la condición. ¡Trampa! En caso de que se traduce por if o, en registro formal, por in the event that / in the event of + nombre, nunca por ~~in case~~ + frase (in case of + nombre sí existe en avisos: In case of fire…). Y even if (= aunque, incluso si: hipótesis) no es even though (= aunque: hecho real).

In case = as a precaution. In the event of / that = formal if. Even if = hypothetical; even though = fact.

Acción + in case + presente (precaución)

In the event of + nombre

In the event that + frase

Take your laptop in case the client wants a demo.
→ Llévate el portátil por si el cliente quiere una demostración.

In the event of a fire, do not use the lifts.
→ En caso de incendio, no utilicen los ascensores.

Even if they double my salary, I won't stay.
→ Aunque me dupliquen el sueldo, no me quedaré.

Alternativas a if · Alternatives to if

Conector	Significado	Registro	Ejemplo · Example
unless	a menos que (= if … not)	neutro	Unless it rains, we'll eat outside.
provided / providing (that)	siempre que, solo si	formal	Provided that you pay, you can stay.
as long as / so long as	siempre que, con tal de que	neutro	As long as you're happy, I'm happy.

Alternativas a if · Alternatives to if (continúa · cont.)

Conector	Significado	Registro	Ejemplo · Example
on condition that	con la condición de que	muy formal	…on condition that it remains confidential.
suppose / supposing / what if	pongamos que / ¿y si…?	neutro	What if we fail?
assuming (that)	dando por hecho que	neutro / formal	Assuming he agrees, we'll start in May.
otherwise / or (else)	si no, de lo contrario	neutro / coloquial	Leave now, otherwise you'll be late.
but for + nombre	de no ser por	formal	But for the rain, we'd have won.
in case	por si (acaso)	neutro	Take a map in case you get lost.
in the event of / that	en caso de (que)	formal	In the event of delay, call us.
even if	aunque, incluso si	neutro	Even if I had time, I wouldn't go.

In case frente a if · In case vs if

La diferencia es de **precaución** frente a **condición**: con in case la acción se hace ya, por si acaso; con if, solo si se cumple la condición.

In case = precaution (do it now). **If** = condition (do it only when it happens).

☂️ in case · por si acaso

- Take an umbrella in case it rains. (lo llevas ya)
- I'll save the file in case the system crashes.
- Write it down in case you forget.

🌧️ if · si (condición)

- Take an umbrella if it rains. (solo si llueve)
- If the system crashes, call IT.
- If you forget, ask me.

The road not taken

Fifteen years ago, Clara Méndez was offered two jobs: one at a large bank in Madrid and another at a tiny start-up in Barcelona. She chose the start-up. "If I had accepted the bank's offer, I would probably be a senior manager now," she says, "but I wouldn't be half as happy."

The start-up struggled at first. "But for a loan from my parents, we would have closed in the first year," she admits. Her parents agreed to lend her the money on condition that she finished her master's degree at the same time, which she did.

Today the company employs 200 people, and Clara is generous with advice for young entrepreneurs: "Take risks, as long as you can afford to lose. Always have a plan B in case things go wrong. And unless you truly believe in your product, don't start at all. If I weren't so stubborn, I would have given up a dozen times."

1 Clara is now a senior manager at a bank. T F

2 Clara thinks she would be happier if she had chosen the bank. T F

3 Her parents' loan saved the company. T F
